

Simulation Scenario

Simulation Case Title: EZIO distal femur/proximal humerus

Patient Name:

Patient Age:

Chief Complaint:

Brief narrative description of case <i>Include the presenting patient chief complaint and overall learner goals for this case</i>	This station will familiarize participants with the EZIO device and its application for the pediatric population.
Primary Learning Objectives <i>What should the learner gain in terms of knowledge and skill from this case?</i>	Participants will gain a clear working knowledge of the application of the EZIO device in pediatric populations: including needle selection, physical landmarking, insertion technique, securing, and management. Other than a workspace ie: tabletop no additional supplies are needed at this station as the clinical educator will come prepared with all necessary equipment.
Critical Actions <i>List which steps the participants should take to successfully manage the simulated patient. Theses should be listed as concrete actions that are distinct from the overall learning objectives of the case</i>	
Learner Preparation <i>What information should the learners be given prior to initiation of the case</i>	

Initial Presentation					
Initial vital signs	HR	B/P	RR	O2sat	Temp
Overall appearance <i>What do learners see when they first enter the room?</i>					
HPI <i>Specify what info here and below must be asked vs what is volunteered by patient or caregiver</i>					
Past Medical/Surgical History	Medications		Allergies		Family History
No medical hx.					
Physical Examination					
General
